TUNTURI®

FEEL BETTER **EVER DAY**

100+ YEARS OF FITNESS EXPERIENCE

We are Tunturi, pioneers in the world of fitness. Established in 1922, we revolutionized the industry in 1969. That year, we introduced the world's first exercise bike ergometer for home use. Fast forward to today, our assortment consists of a wide range of cardio machines, strength equipment and accessories.

TUNTURI FAMILY

We value long-term partnerships built on personal connections and trust. Joining us means becoming part of the Tunturi family, where collaboration and mutual success are at the heart of everything we do.

HELIX

LATERAL TRAINER

By training **more** muscle groups & creating **greater** activation within those muscles, Helix® burns **more fat** and delivers **faster results** in less time than any other cardio trainer, making it the world's most effective workout.

But lateral training has major benefits beyond fitness as well. As the only cardio trainer that works the body in **all 3 dimensions of human motion**, lateral trainers have been clinically shown to reduce knee & hip pain due to arthritis, injury or joint replacement surgeries.* They are also effective at

reducing age-related fall risk, having been clinically shown to improve strength-related balance by an average 59%.***

Eco friendly & ideal for small spaces: tiny footprint + no electricity needed

Because of these competitive advantages, Helix® trainers are used by some of **the world's most elite pro athletes**, such as the Los Angeles Lakers the New England Patriots & the Cleveland Cavaliers, yet their *therapeutic* applications make them equally well suited for injury rehab and prevention for those in search of **"active aging."**

Cardio that delivers strength training caliber results

Improves joint health over time

Used by PTs to rehab bad knees

*2022 clinical study
California State Univ
Long Beach

**2011 clinical study
Human Performance Research
Lab, University of Tampa

***2015 side step study

Increased Muscle Activation:

Helix® lateral trainers reach target heart rates more quickly & produce increased muscle activity when compared to "traditional" cardio like ellipticals.**

THE BEST**

Aircraft spec 5mm American LOOS cable with 4,200 lbs breaking strength. All fittings tested for 300,000 cycles using full weight stack.

Strong ABS shroud for maximum safety and super stylish look.

Unique tube size of RT40*118*3 RT50*100*2.5 YD72.8*141.7*3

Pu moulded seats and long lasting upholstery

Multi handle grips for various workout requirements

Tubing thickness range from 2.5mm to 3mm. Electro-welded construction for maximum strength and stability

Pulley size of $\phi 114$ makes the movement of cable very smooth.

SL-9501 CHEST PRESS

Pre-stretch allows easy entry and exit, and increase the range of motion

The 3-bar linkage structure offers smooth, convenient adjustment

Multi-position handle bars allow variety workout

Double parallel grips replicates chest fly movement effectively

WEIGHT STACK : 235 LBS

LXWXH : 155.2X123.1X150.3 CM

SL-9502 DIVERGING LAT PULLDOWN

Uniaxial structural movement ensures complete & efficient muscle workout.

Aluminum casting handles stand for the premium positioning.

Adjustable foam roller offers supports during workout for users at various height.

WEIGHT STACK : 235 LBS

LXWXH : 130.5X122.4X109 CM

SL-9503 ARM CURL

Ergonomic handle bar is self-adaptive to meet various users requirements

User-friendly design allows easy entry and exit.

Independent arm motion structure allows exercise simultaneously or alternately.

WEIGHT STACK : 200 LBS

LXWXH : 112.2X158.3X156.3 CM

SL-9505 LEG EXTENSION

Back support pad allows one-hand adjustment. Under thigh support designed to offers comfort and reduces stress on hamstrings during workout

Adjustable foam roller and back support pad allows users at different height for a desired position

Pivot mark in yellow allows users to determine correct position for knees

WEIGHT STACK : 200 LBS

LXWXH : 140.1X122.7X156.3 CM

TUNTURI

SINCE 1922

SL-9506 SEATED LEG CURL

Adjustable foam roller is designed to adapt the natural movement required by various users

Back pad support is adjustable in a sitting position

Pivot mark in yellow allows users to determine correct position for knees

WEIGHT STACK : 200 LBS

LXWXH : 149.5X127.5X156.3 CM

SL-9508 ABDUCTOR / ADDUCTOR

Dual station designed to train outer and inner thigh muscles

User-friendly design allows easy entry and exit. Weight stack in front is for privacy purpose.

The double foot platform accommodates various users

Large size pads insure comfortable support for various users

Easily adjustable starting position offers wide range of motion

WEIGHT STACK : 200 LBS

LXWXH : 78.4X163.6X156.3 CM

SL-9509 TOTAL HIP

Adjustable foam roller provide a personalized fit for isolateral training

Various workout for hip

Handle bars on sides provide user stabilization and support

Adjustable platform suitable for various users

WEIGHT STACK : 200 LBS

LXWXH : 97.2X138.1X156.4 CM

SL-9510 LEG PRESS / CALF RAISE

Foot platform and handle bar for easy entry and exit

Adjustable sliding rack accommodates various users for a ideal range of motion

Foot plate angled at unique 4° recline to save ankles and knees from injury

WEIGHT STACK : 295 LBS

LXWXH : 181.3X117.6X156.2 CM

SL-9512 SHOULDER PRESS

Independent converging movement offers natural and ergonomic workout

Counter weight enables user to start easily

Multiple grips allow to target front and middle delts effectively

WEIGHT STACK : 235 LBS

LXWXH : 155X149X156.4 CM

SL-9515 PEC FLY / REAR DELT

Dual station designed to train chest and rear deltoid muscles.

Option of multiple starting positions to meet various users training requirement

Variable circular motion can be achieved as required by various users

WEIGHT STACK : 200 LBS

LXWXH : 149.7X162.9X204.8 CM

TUNTURI

SINCE 1922

SL-9516 STANDING CALF RAISE

To train calf muscles in standing position, provide a better training effect by combining user self-weight

Adjustable starting position enables user get into the machine in standing position without the need to bend down

Contoured shoulder pads are designed to give comfortable experience

Anti-slip footrests provide comfort and safety

WEIGHT STACK : 235 LBS

LXWXH : 119.2X119.7X175 CM

SL-9517 SEATED DIP

Rotating handles accommodate various users

Angled back support improves stability and comfort

WEIGHT STACK : 200 LBS

LXWXH : 142.8X130X156.4 CM

SL-9519 VERTICAL ROW

Independent arm movement allows isolation of back muscles separately

Foot pedals are positioned to give comfortable posture for various user

Uniquely designed handle grips provide are firm and solid grip

WEIGHT STACK : 235 LBS

LXWXH : 198.4X112.9X156.3 CM

SL-9520 WEIGHT ASSISTED CHIN / DIP COMBO

Dual station designed to give isolation to your complete upper back with weight assisted support

Multi-positional hand grips enables various users to perform triceps and chest dips effectively

WEIGHT STACK : 200 LBS

LXWXH : 139.4X160.8X228.5 CM

TUNTURI

SINCE 1922

SL-9521 PRONE LEG CURL

Angled seat pad is designed to give support to core and spinal column, while stabilizing the hip

Pivot mark in yellow allows users to get correct exercise position.

WEIGHT STACK : 200 LBS

LXWXH : 118.5X144.3X156.3 CM

SL-9522 LAT PULLDOWN / SEATED ROW

Dual station designed to give training of vertical row and lat pulldown

Adjustable knee rollers suitable for various users

Large size foot plates for added comfort

Comes with two handles for variation

WEIGHT STACK : 295 LBS

LXWXH : 122.3X193.6X223.1 CM

SL-9524 LATERAL RAISE

Natural movement of rotating hand grips adapts to different size users

The Large arm pads for increased support

WEIGHT STACK : 200 LBS

LXWXH : 109.8X128.4X156.4 CM

SL-9525 ADJUSTABLE HI / LO PULLEY

Multiple training unit for working out upper and lower limbs comprehensively.

Compatible to attach with SL9527 four station and make it 5 station cable jungle with cable crossover

WEIGHT STACK : 295 LBS

LXWXH : 148.2X118.7X235.6 CM

SL-9527 JUNGLE MULTI GYM

SL-9525+SL9527OPT+SL9527 5 STATION CABLE CROSS OVER

Unique combination of 4 to be must stations in every facility.

Lat pulldown, Long pull, Pec fly / Rear delt & Hi - Lo pulley would cater to most of the upper body exercises

Compatible to attach with SL9525 hi-lo pulley and make it 5 station cable jungle with cable crossover

WEIGHT STACK : 235 X 4 LBS

LXWXH : 348.8X264.6X235 CM

WEIGHT STACK : 235 X 4 LBS

WEIGHT STACK : 295 LBS

SL-9527 OPT

CONNECTOR

Robust & strong built with multiple chin up handles

SL-9528 LEG EXT / LEG CURL

Dual station designed to give movements of leg curl and leg extension.

Back pad could be easily adjusted.

Pivot mark in yellow allows users to determine correct position for knees

WEIGHT STACK : 200 LBS

LXWXH : 135.1X131.9X156.3 CM

SL-9529 MULTI PRESS

Dual station designed to give movement of chest press, incline press and shoulder press.

Dual hand grips accommodate different size users

WEIGHT STACK : 235 LBS

LXWXH : 182.7X147.7X167.2 CM

STERLING SERIES

Easy to use, neat appearance, the SL line is a high quality commercial plate loaded series. The user-friendly design makes working out more simple, efficient, comfortable and satisfying.

Tubing: thickness range from 2.5 mm to 3mm, 50mmx100mm tubing, electro-welded to maximum integrity.

Color: black and red (Other colors are optional based on customer requirements)

Finish: Electrostatic powder-coated and heat cured after adhesiveness enhancement pre-treatment for superior durability

Compact - space efficient design requires minimal floor space.

Pad total thickness is 70mm.

Easy-to-use, flexible adjustments allow for optimal exercise positions.
